Notice to Residents:

Re: Noise Bylaw Exemption Tuesday March 19th, 21st, 26th, and 28th, 2019 for North America Construction (1993) Ltd. (NAC) is constructing the Secondary Treatment Upgrade Project for the Regional District of Nanaimo's Greater Nanaimo Pollution Control Centre at 4600 Hammond Bay Road. Scheduled activities require bypass pumping of main sewage channel into the plant.

The City of Nanaimo has granted NAC a Noise Bylaw exemption to complete raw sewage channel aeration and cleaning from 4:00am to 12:00pm for the above dates for Bypass pumping. Neighbouring residents may notice noise and light during this time.

We foresee this work to be minimal and not take up the entire period we are requesting. Construction work will involve use of 6" diesel bypass pump, hydrovac truck, concrete saws, telehandler, generators, light towers, and small tools etc. We anticipate bulk of the noise to be between 6:00am to 9:00am.

While we may request future Noise Bylaw exemptions, we will make efforts to keep construction activities within the regular construction hours. Estimated work duration is 6hrs, but given unforeseen circumstances we may request a longer duration to complete the critical works.

Please call me to discuss if you need any further information. I may be reached at 250-751-4262 ext. 22

Thank you,

Phillip Longo
