QUESTIONS & ANSWERS

Q1: There is a well at the west edge of the proposed playground area. Is the size of the well shown accurately on the plan, and is the intent that this well remains in place and the play area / adjacent trails are designed around it?

A1: The location of the well has been surveyed by a BC Land Surveyor. The size will need to be confirmed on site. It is the intent that the well remains in place and the play area and trails are designed around it.

Q2: Is there additional survey information available for the SW corner of the proposed playground area?

A2: All the survey information available is as shown on the Existing Conditions Plan.
